Company Profile

Who we are

We are a family owned company that has established a reputation for excellence since 1983. Our growth can be attributed to our four pillars: safety, quality, our professional team and excellence in service to customers.

These values allow us to fulfil our company purpose:

“To provide innovative solutions that are ideally suited to the demanding conditions of remote Australia.”

CEO statement

NT Link is proud of the work we do in remote areas of Australia. Delivering projects on time, on budget and ensuring that every part of the project scope is met in a professional manner.

We are one of the very few transportable building companies in Australia that don't have foreign ownership, ensuring that any profits are reinvested here in Australia and create more Australian jobs. Our people have years of experience in manufacturing, transport, design and installation of transportable buildings.

We are able to take on all aspects of your project meaning we remove the stress and worry out of the process and deliver turnkey solutions. We value our customers and work to engage with communities where we are working to offer opportunities to local residents.

A stylized, handwritten signature in black ink, consisting of several loops and a long horizontal stroke at the end.

Tim Stewart - CEO

Commitment to Customers

We are committed to providing consistent, reliable and quality products and services to our customers.

We aim to exceed our customers' expectations and needs.

This is achieved through a trusted and transparent collaborative relationship throughout each job.

People

Our strong and experienced team work closely with our clients to deliver complete turnkey solutions.

Overseen by our CEO, our management framework and team structure approach is designed to maximise efficiency, deliver to client expectations and drive project success.

Services

With specialist building design and engineering, we provide innovative high quality temporary and permanent transportable building solutions.

We undertake a wide variety of work ranging from small residential, to large commercial or industrial projects. We specialise in providing building industry solutions for:

- Mining & Resource
- Construction & Civil
- Federal, State and Local Governments
- Education
- Health
- Housing
- Residential

Capabilities

Design

With our specialist building design team and partners in engineering, we custom design buildings, complexes and associated infrastructure. Our team works closely with our clients to design 'built for purpose' buildings or complete package solutions to meet the requirements of every project.

Manufacture

Led by our Manufacturing Manager, with over 20 years of experience, our team brings together specialised manufacture skills. Our work-flow is driven using up to date information technology that automates processes and tracks real-time progress and demands.

Our manufacturing facility is built for purpose with three undercover manufacture and refurbishment spaces, welding bays and a specialised panel cutting room.

All of our buildings are compliant with the Building Code of Australia (BCA) and state regulations. We select quality materials from our Australian suppliers, specifically designed to withstand the harsh conditions of the remote environments in Australia, whilst still providing optimum comfort for occupants.

Transport

Our team of experienced drivers and operators have a reputable history of working with transportable buildings and specialising in remote and long haulage.

Our fleet of 8 prime movers and 30 trailers, plus our wide range of plant and equipment, enable us to provide transport and installation needs in-house to meet our client's needs.

Install

Our installation teams provide a comprehensive range of services. They are equipped with a wealth of experience, including the challenges of remote installations and harsh conditions of different regions. The team meet the requirements of highly regulated and demanding project environments and maintain the flexibility to respond to changing site conditions.

Hire

With an existing building fleet of over 1,200 located throughout the Northern Territory and Western Australia, we have the ability to respond quickly and supply buildings across remote Australia. Our manufacturing and retrofitting facilities enable us to provide customised solutions to meet the needs of any project.

Our rental building stock includes:

- Accommodation
- Offices
- Classrooms
- Lunch rooms
- Kitchen, wetmess and dining facilities
- Recreation rooms and gymnasiums
- First aid and medical facilities
- Laundries and amenities

Sales

Our sales team understand the design, engineering, transport and installation requirements of your project. Delivering innovative solutions to customer's complex requirements means that the money spent ensures your project is the best value possible. Our range of standard building designs can be manufactured within weeks of receiving your order. Our sales and design team work closely with customers to customise designs to suit the needs of every project.

Management Systems

We utilize an all-encompassing management system with effective and efficient processes to ensure we deliver on our workplace safety, social, economic and environmental goals.

Safety

Safety is our priority in all of our operations; we take every measure necessary to ensure everyone leaves work in the same condition that they arrived – injury free. Safety management is a key pillar to our business and our Safety Management System is certified to AS4801.

Quality

Quality is one of our core values; we ensure product quality is maintained through quality control across all areas and endeavour to identify continual opportunities for improvement. We operate with a Quality Management System certified to ISO 9001, to provide reliable, professional and exceptional service.

Environment

We are committed to responsible environmental management. Our Environmental Management System is certified to ISO 14001 and provides the framework and objectives for each area of our company to ensure that everyone respects and works with a focus on preserving the environment.

Commitment to our Community

We are a proud Territorian business and we strive to conduct business in a way that produces benefits for local communities. We are committed to ongoing contributions to local communities, some of which are detailed below, and we look forward to continuing our commitment in the future.

- Major sponsor of annual “NT Link Netball Championships” (2014 – present)
- Participant in “Sentenced to a Job” return to work program (2015-present)
- Employment of indigenous and local people wherever possible
- Employer of 5 of apprentices (2012-2017)
- Procurement from local small business suppliers wherever possible
- Major donor to Alice Springs Indoor Netball stadium (built 2017)
- Sponsor of local football, soccer, netball, dirt bike racing, cycling teams (2009 – present)
- Sponsor of 43 Indigenous students through secondary studies at St Philips College (2009 – present)
